Research Papers

Grain size characteristics of dune sands in the central Taklimakan Sand Sea X. Wang, Z. Dong, J. Zhang, J. Qu and A. Zhao	1
Triassic–Jurassic weathering and clay mineral dispersal in basement areas and sedimentary basins of southern Sweden A. Ahlberg, I. Olsson and P. Šimkovičius	15
An eclectic morphostratigraphic model for the sedimentary response to Holocene sea-level rise in northwest Europe J.R.L. Allen	31
Aphotic zone carbonate production on a Miocene ramp, Central Apennines, Italy L. Corda and M. Brandano	55
Aeolian sand transport: a wind tunnel model Z. Dong, X. Liu, H. Wang and X. Wang	71
Sequence stratigraphy of continental Triassic strata of Southernmost Brazil: a contribution to Southwestern Gondwana palaeogeography and palaeoclimate H. Zerfass, E.L. Lavina, C.L. Schultz, A.J.V. Garcia, U.F. Faccini and F. Chemale Jr.	85
Events of sediment deformation and mass failure in Upper Cretaceous estuarine deposits (Cametá Basin, northern Brazil) as evidence for seismic activity D.F. Rossetti and A.E. Santos Jr.	107
Variations in the composition of the clay fraction of the Cenozoic Pagodroma Group, East Antarctica: implications for determining provenance W. Ehrmann, J. Bloemendal, M.J. Hambrey, B. McKelvey and J. Whitehead	131
Sequence stratigraphy and bedding rhythms of an outer ramp limestone succession (Late Kimmeridgian, Northeast Spain) B. Bádenas, M. Aurell, F.J. Rodríguez-Tovar and E. Pardo-Igúzquiza	153
Research Papers	
Upper Cretaceous (Campanian) phosphorites in Jordan: implications for the formation of a south Tethyan phosphorite giant P.K. Pufahl, K.A. Grimm, A.M. Abed and R.M.Y. Sadaqah	175
Larval caddis-fly nets and retreats: a unique biosedimentary paleocurrent indicator for fossil tufa deposits R.N. Drysdale, K.D. Carthew and M.P. Taylor	207
Sedimentary patterns in perched spring travertines near Granada (Spain) as indicators of the paleohydrological and paleoclimatological evolution of a karst massif A. Martín-Algarra, M. Martín-Martín, B. Andreo, R. Julià and C. González-Gómez	217
Alluvial architecture of the human-influenced river Rhine, The Netherlands A.W. Hesselink, H.J.T. Weerts and H.J.A. Berendsen	229
